9V Battery clip

Arduino Nano
and mounts

M3 screws 6mm
+M3 nuts

Potentiometers

BNC connectors

photodiode

Resistors

10k, 47, 10, 10k

push-button

LED

Buzzer

Capacitor: 1uF

Oriented pieces:
- Photodiode and LED: orient long legs towards the bottom edge of the board
- Button: the two rightmost holes matter, make sure the button isolates them until pressed
